## NHS eProcurement Strategy

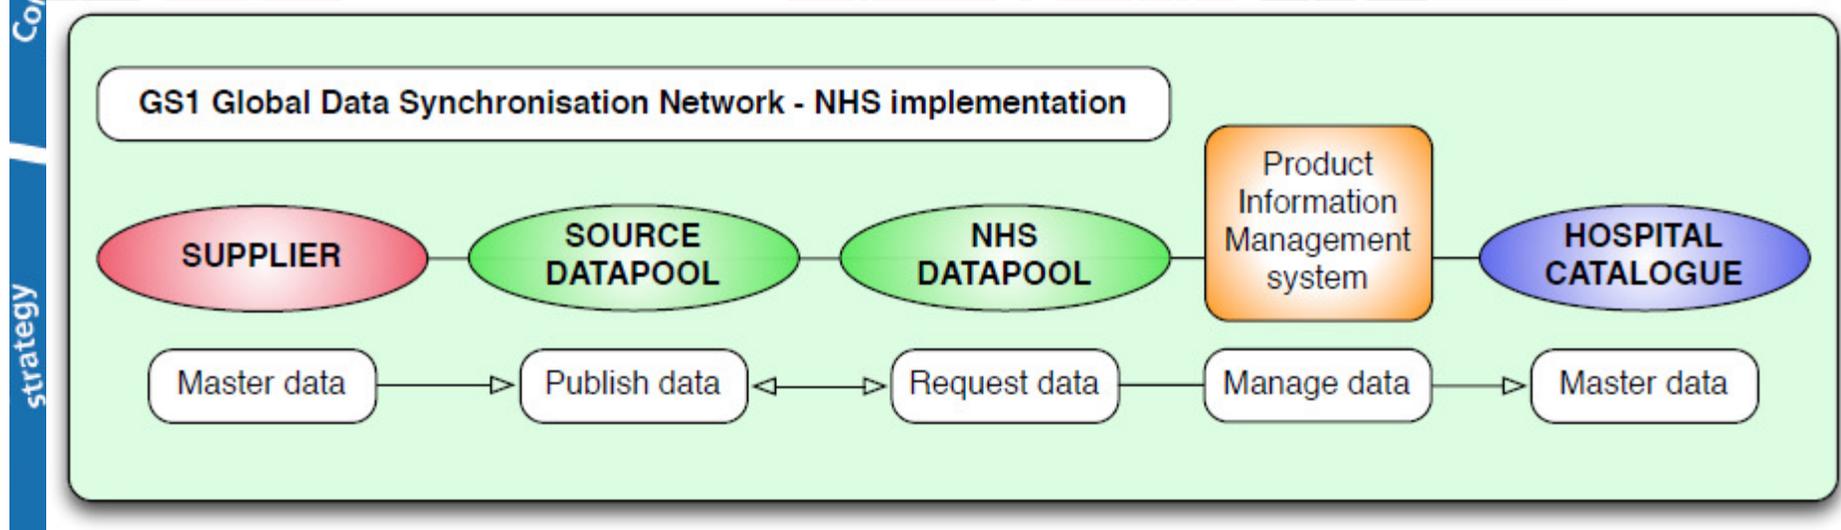

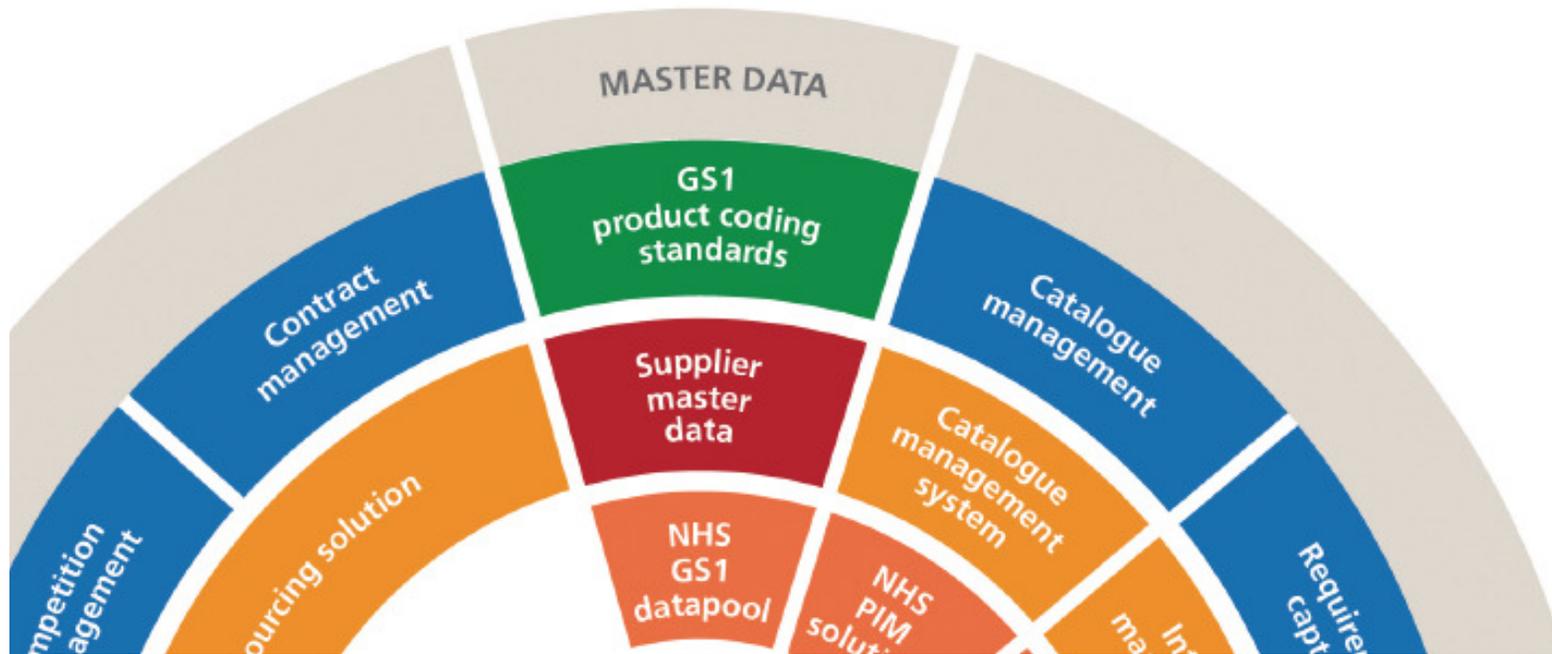

# The shape of NHS eProcurement

# The shape of NHS eProcurement

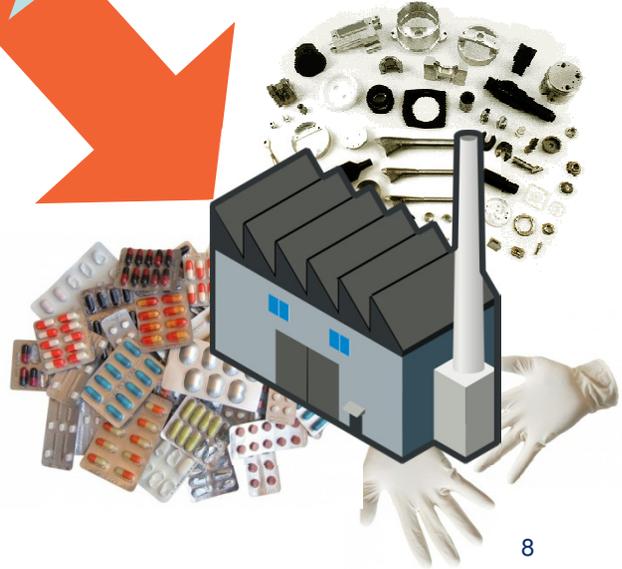

# How the mandate will work

The Standard Contract  
*“Providers must comply with the eProcurement Guidance”*

The NHS Contract for supply of goods and services  
*“Suppliers must enter master product data into a GS1 compliant datapool”*

NHS Information Standards

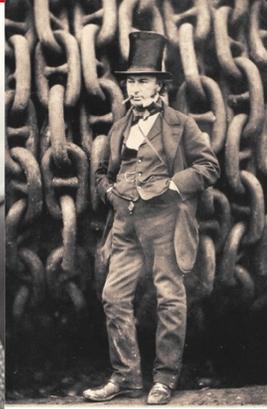

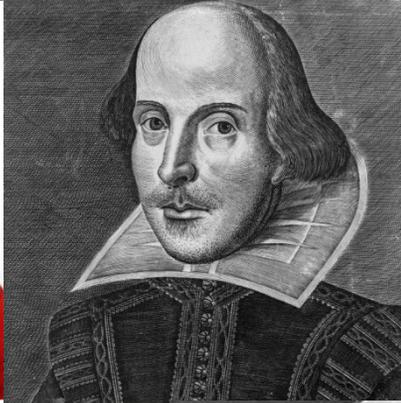

All hospitals have targets called  
CQINS

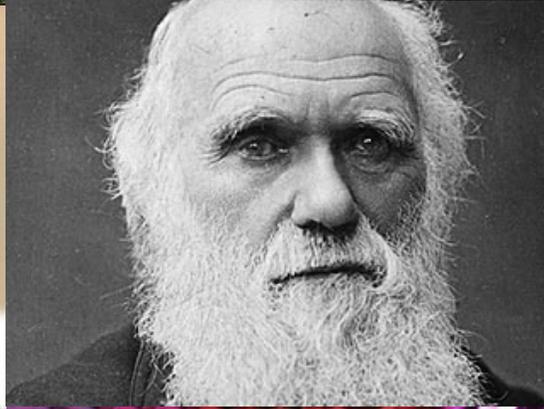

Not hitting these targets can effect  
reimbursement by +/- 2.5%

This implies that if you are a  
GS1 compliant hospital you could be  
paid 5% more for each procedure than  
a non-compliant hospital
