# **GS1 Healthcare Austria**

## **Barbara Dorner**

• June 21, 2007

• Participants: 21

- Hospital Groups
- Pharma Industry
- Pharma Wholesalers
- Association of Pharma Wholesalers
- Association of Medical Device Manufacturers
- Pharmacists
- GIRP

- Next meeting: November 8, 2007
- Participants: 25
  - Hospital groups
  - Pharma wholesalers
  - Pharma industry
  - Association of medical device manufacturers
  - Association of pharma wholesalers
  - Medical device manufacturers
  - Austrian Chamber of Medical Doctors
  - Ministry of Health

- The way to marking instruments
  - Starting with containers and trays
    - GRAI
    - RFID/EPCglobal Standards
- Marking pharmaceuticals
  - Current marking: PZN included in the GS1 Standard (GTIN with Prefix)
  - Future marking: moves towards GS1 DataMatrix

- To be a **LINK** to global GS1 Healthcare Group

## **Alicia Duval**

## Launching GS1 Healthcare Canada – Strategic Focus

- **Industry**
  - Healthcare Providers
  - Pharmacy Chains
  - Healthcare Manufacturers
- **Government** – Federal and Provincial Levels
- **Stakeholders** – association and patient safety advocates
- **Strategic Partners** – CareNET and Canadian Pharmacy Distribution network
- **Public Relations** – media and communications strategy

## News Release

### **GS1 Canada and CareNET Services Inc. Announce Strategic Alliance: Innovative Partnership to Build Safer Healthcare for Canadian Patients**

**TORONTO, Ontario, October 17, 2007** – GS1 Canada and CareNET Service Inc. (CareNET) today formally announced their strategic alliance to further the adoption of global supply chain and electronic commerce (e-commerce) standards and practices with the shared vision of directly improving patient safety and administrative efficiency within the Canadian healthcare community.

## CareNET Strategic Alliance

- Delivers over **430 hospital** members to GS1 Canada
- Initial step in **assigning GLN's** within the Canadian Healthcare sector
- Establish a working group to **enhance and expand E-Commerce in Healthcare**
- Support CareNET's transition to a **neutral certifier of solution providers** – GS1 standards a condition of certification
- Support CareNET's strategic focus on **patient safety and supply chain efficiencies** based on the integration GS1 system of standards

## News Release

### **Uniform Bar Coding of Vaccine Doses Will Strengthen Patient Safety: GS1 Healthcare Canada announces its Collaboration with the Public Health Agency of Canada**

**TORONTO, ON, October 2007** – GS1 Healthcare Canada today announced its collaboration with the Public Health Agency of Canada (PHAC) and the Canadian Immunization Registry Network (CIRN) in recommending that all vaccines approved for use in Canada be marked with a GS1 bar code at the unit dose level in order to strengthen patient safety.

## Barcoding of Vaccines and Biologics

- Canadian Pilots have shown that between 5 -15% of immunization records were missing important information and up to 24% contained errors. Poor immunization records can lead to up to 10% of the population being re-immunized.
- Recommendation:
  - GS1 2D DataMatrix
  - GTIN, Lot, expiry
  - Peel off labels to support healthcare provider work flow
- Commissioned GS1 Canada to develop implementation guidelines

## **GS1 Canada Submission to Institute of Safe Medication Practices and Canadian Patient Safety Institute Barcoding Consultation Process**

“GS1 Canada agrees with your assessment that pharmaceutical label coding is a primary measure to make patient care safer in Canada and around the globe. We look forward to the opportunity to partner with ISMP and CPSI to support efforts that garner stakeholder participation and enable implementation and best practices.”

## Launch of Rx2 Data attributes in ECCnet Registry

- ECCnet – Supporting patient safety and efficiency by providing a **single source of truth** on product attributes
- Approximately **400,000 GTINs** stored in ECCnet
- **20,000 pharmaceuticals** and over-the-counter medications
- Canada's **major pharmacy chains and distributors** utilizing ECCnet
- Enhancing solution to **facilitate pricing and proprietary information**, with future capabilities for instant messaging
- Strategic focus on **hospital pharmacy and medical surgical** sector

## Four Working Groups:

- Vaccines and Biologics Working Group (Public Healthcare Agency of Canada)
- Pharmacy Standards and Data Synchronization
- Healthcare Standards Working Group
- Data Cleansing and Classification

## June 2008 - Your Proud Host

## GS1 Healthcare Canada Official launch

**Representatives of manufacturers and pharmacies**

## REGULATION

EAN -13 (EAN-8) is mandatory till 1993.

*Law on Medicines and Medical devices:*

- Marketed medicinal product must include on its outer package: ...  
... EAN code (GTIN)
- Every medical device with a marketing authorisation must be labeled  
... and shall include ... EAN code

*Regulation for medicinal products (marking the basic outer package),  
2007, obliged the use of EAN-13 or EAN-8 (ISO/IEC 15420)*

Initiatives on regulations for marking logistic units and unit doses.

Procedure for adoption the ISO standard for Data Matrix as national standard (ISO/IEC 16022). It is translated on Serbian language.

## **Marketing and education**

Seminars

Manuals, booklets

Articles, interviews

Information on Web site

## Projects

Consultation and/or participation in projects

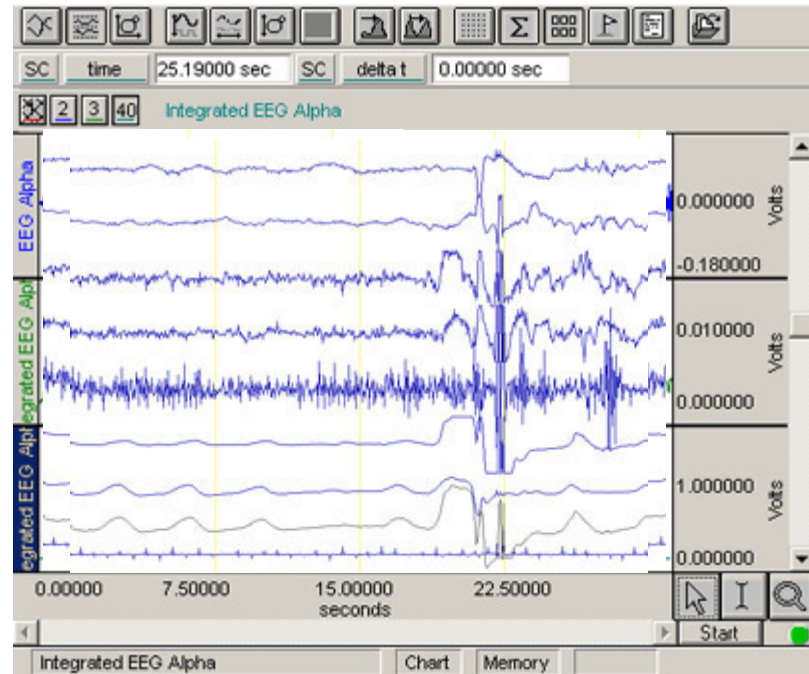

Development of healthcare information system for basic healthcare and pharmaceutical services (electronic patient file)

Implementation of GS1 standards in clinics (cardiosurgery, ORL) and pharmacy institution

# **GS1 Healthcare Switzerland**

## **Christian Hay**

\*EEG = electro encephalogramm

### GS1 System is used for

- Pharma retail pack identification
- Narcotic control\*
- this including a GLN repository\*\*
- Pharma wholesale Supply Chain, this including EDI\*\*\*
- Health invoicing, using GTINs and the GLN repository

### Acquisition of new members limited !

\* [www.abeko.admin.ch](http://www.abeko.admin.ch) \*\* [www.medwin.ch](http://www.medwin.ch)

\*\*\* [www.medilog.ch](http://www.medilog.ch)

## **Facilitate understanding in GS1 Healthcare activities and objectives**

- Explain, translate, comment organise feed-back to and from HUG Working Groups (ex GTIN allocation rules)

## **Promote more intensive use of GS1 System**

- Federal Register of Healthcare Professionals built on existing GLN repository, including new categories (i.e. pharmacists, etc.)

## **Coach / participate to the “SmartLog” pilot**

- Use the pilot to learn

## **Encourage Bedside Scanning**

- Promote and inform about hospitals disposing of an eMAR (electronic Medication Administration Registry).
- At the coming hospital pharmacists annual meeting, Bedside Scanning demonstration with 6 Pharma Manufacturer

## **Dennis Harrison**

- Planning meeting – 10/16 – 10/17/07
- 20 community representatives (providers, associations, GPO's distributors, and manufacturers)
- Vision, Mission and Charter
- 5 co-chairs (manufacturer, distributor, provider, GPO and retail pharmacy)

1. GTIN Implementation
2. GLN Implementation
3. GDSN Implementation
4. Pedigree/Track and Trace
5. Auto ID in Healthcare
6. Serialization (tentative)

Tasks – communication, regulatory

- Publish charter – 11/30/07
- Establish fee schedule – 11/15/07
- Select co-chairs – 11/07 – 12/07
- Select workgroup leaders – 11/07 – 12/07
- Form workgroups – 11/07 – 12/07
- Begin workgroup activities – 11/07 – 12/07
- Meet with larger community – 2/08, 6/08, 10/08

- FDA – Bill signed – UDI regulations
- California – Pedigree Law - 2009
- HSCSC – GS1 keys in healthcare
- DOD GDSN pilot
- US GLN Registry for Healthcare<sup>®</sup> and Minnesota Pilot
