

HUG Canada

Initial Healthcare Priorities

- Engage the Canadian healthcare industry through the HUG structure
- Bring Canadian requirements to the global level
- Leverage the success of ECCnet Registry and the accomplishments of GS1 Canada's Retail Pharmacy Task Group
 - 17,000 Rx & OTC products loaded
 - 75 Rx vendors synchronizing data with pharmacy chains and distributors
 - Pharmaceutical attributes defined
 - Dispensing Unit white paper submitted to HUG
 - Rx product listing best practices drafted
- Launch a vaccine and biologics user group to support the call to action issued by the Public Health Agency of Canada (PHAC)
- Address applicable government priorities at the Federal and Provincial levels
